

Humber Area Prescribing Committee

Summary of decisions made regarding new product requests considered at a meeting of the Committee on October 2023

Classification of products:

Status	Description
 GREEN	Medicines suitable for routine use within primary care and Secondary care. May be initiated within primary care within their licensed indication, in accordance with nationally recognised formularies
 AMB 1	Specialist recommendation: These medicines are considered suitable for GP prescribing following specialist recommendation or via an APC approved prescribing guideline.
 AMB 2	Specialist initiation: These medicines are considered suitable for GP prescribing following specialist initiation, including titration of dose and assessment of efficacy. These medicines may also have an APC approved guideline to aid GPs in further prescribing.
 AMB SCP	AMBER SHARE CARE PROTOCOL- Specialist initiation with ongoing monitoring: Medicines that must be initiated by a specialist, and which require significant monitoring on an ongoing basis. Full agreement to share the care of each specific patient must be reached under the shared care protocol which must be provided to the GP. If a commissioned shared care is not available in CCG/place then these drugs must be treated as red drug (hospital only).
 RED	Red-Hospital initiation and continuation only
 GREY	GREY- NON FORMULARY (As agreed by Area Prescribing Committee)
 PURPLE	To be supplied from the appropriate commissioned provider.
 NR	Not routinely commissioned
